

Today Report

5/8/2015

control the led “ LAMP” with

-manual switch

-LDR

-IR remote

- Blue-tooth

finishing schematic and coding

Testing

drawing rectifier on Eagle

Printing it on PCB

Drilling the points

the next time :

limit Switch for garage

fan

lamp

Welding on PCB

PIR and security

Tasks :

- Searching for arduino communication**
- make your own arduino**
- Schematics and how to boot
atMega328p**
